COMPANY INTRODUCTION

Pearl Industries (PI) L.L.C. is a renowned regional leader in the manufacturing of high-performance garbage chute systems for the construction industry. Our mission is to accelerate a net zero emissions future, with the benefit of people and our planet at its heart.

Why Us?

Operating from the year 1998 to date, Pearl Industries has gained a reputation for providing excellently engineered & manufactured products & services, delivered on time at the best rates with world class customer service and quality. We highly value honesty and integrity in our products & customer interactions.

PI Garbage Chute Systems

PI Garbage Chute Systems division has been operating since the year 1998, and has completed many prestigious projects in the U.A.E. PI Garbage Chute systems are approved by major consultants and contractors in the U.A.E. PI Garbage Chute Systems are designed, fabricated & installed both in stainless steel and galvanized steel by our in-house team. We are also manufacturing Compactors and Trolleys as per Dubai Municipality standards.

Our factory & workshops are located in Industrial Area 15, Sharjah, which houses separate manufacturing units for Garbage Chute system & Powder Coating Plant. Our products come with a warranty of one year and any defects occurring throughout this period are taken up immediately will be maintained immediately.

With a workforce of over 180 staff including certified welders and fabricators, Pearl Industries's top quality product is supported by top quality customer service.

OUR VALUES

Underpinning Pearl Industries are the values that reflect its culture, govern its conduct and decision-making

INTEGRITY

We are committed to upholding high ethical standards in all our operations, everywhere.

INNOVATION

We apply ingenuity, innovation and adaptability to ensure our clients' needs are met and their expectations are exceeded.

FOCUS

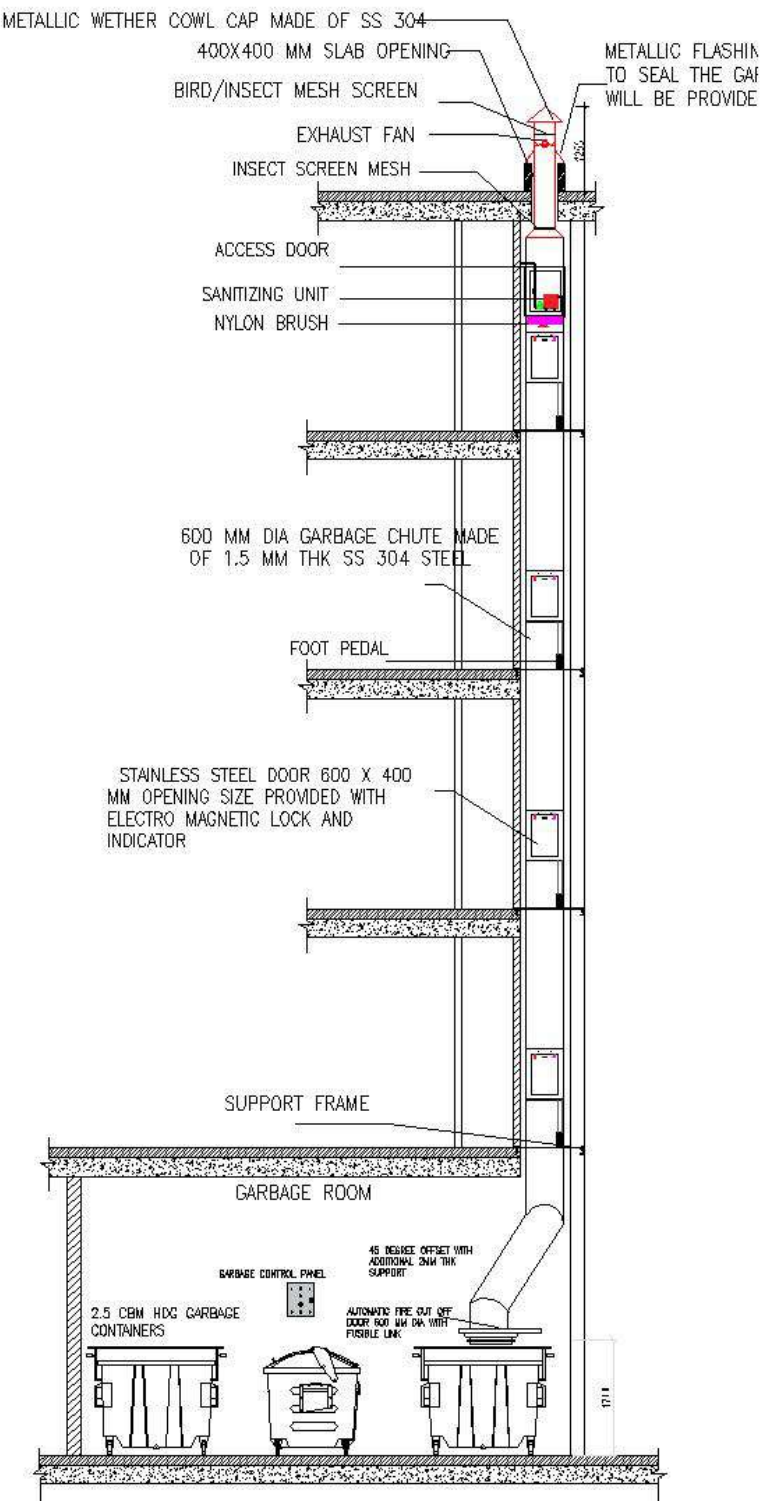

We have built a responsive business culture that focuses on our client's needs and provides customized solutions with certainty of delivery.

PEOPLE

We are creating a workplace of shared responsibility; our employees are recognized for their initiative, Professionalism & team work.
